

Accessories for Pet Injections & Blood Sample Collection

Inject-Ease®

Pet Injections Made Easy

Re-usable device that makes pet subcutaneous injections easy. Simply place a loaded syringe in the Inject-Ease, place the tip against the skin, and press the button to automatically deliver the needle through the skin. You control the rate at which the medicine is injected.

- Usable with subcutaneous injection treatments, including diabetes and other conditions
- Special tip & technique- helps reduce the pain by masking the needle puncture
- One button use provides aid to the pet owner with limited dexterity and coordination
- One press of the button inserts the needle through the skin automatically and easily
- Allows use of different size insulin syringes-works with 30, 50, or 100 unit syringes
- Spacer rings allow to vary the injection depth
- Quiet so it does not startle the pet
- Easy to practice injection technique to increase confidence
- Stabilizes the device on the skin to reduce early withdrawal and loss of fluid
- Affordable with 2 year warranty
- Part# IE400V

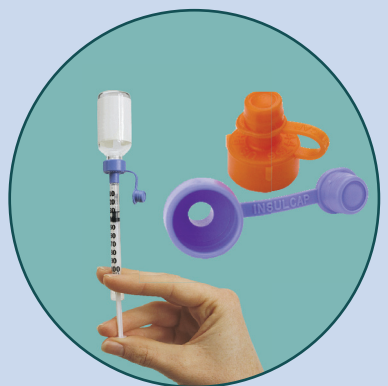

Insul-eze®

Syringe Magnifier

One-piece syringe magnifier that holds syringe and insulin bottles in place for those with visual or manual dexterity problems.

- Aids in syringe loading for visually impaired
- Magnifies all syringe calibrations two times for easy reading
- Holds syringe and bottle firmly while drawing dosage
- One piece unit accommodates most syringes and bottles
- Can be attached to refrigerator or wall with Velcro or magnet for easy viewing and loading
- Part #IZ6000

Insul-Cap®

Stores, Identifies Insulin Bottles, and Helps Load Syringes

Insulin bottle caps designed to aid in storing, identifying and making drawing insulin into a syringe easier.

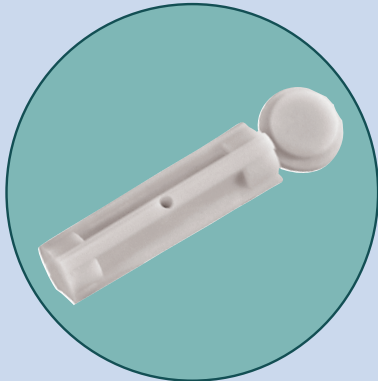

- Allows one-handed syringe loading
- Fits most standard syringes and insulin bottles
- Easy to put on, store and remove
- Keeps bottle tops sanitary
- Safely holds insulin bottle while user holds syringe
- Part #IC200S

Ambi-Tray® Insulin Bottle Tray

Small and sturdy Insulin bottle holder that keeps bottles organized and standing upright.

- Fits most standard insulin bottles
- Easy to put on, store and remove
- Part #ITR500S

EZ-Lets™ Lancets

High-quality lancets compatible with most standard lancing devices.

- Precision-ground tri-bevel point for clean, precise punctures
- Full range of sizes available — 21 gauge, 26 gauge, 28 gauge and 30 gauge

auto-Lancet Adjustable Tip Lancing Device

Re-usable quiet and comfortable lancing device that assists in obtaining capillary blood samples for testing.

Five level adjustable tip allows variation of lancet penetration

- Pen shape available mini (3.5") size
- Works with industry standard lancets
- Part #AL100MK23AESP
